CREATIVES FOR UNIQUE INTERIOR ENVIRONMENTS

McCray is an austin-based studio that has built a reputation for visionary, concept-driven work and a thoughtful, collaborative approach to design since 2011. For McCray, a successful space is one that tells a story – using materials, objects, texture, and color to create a dynamic, three-dimensional narrative.

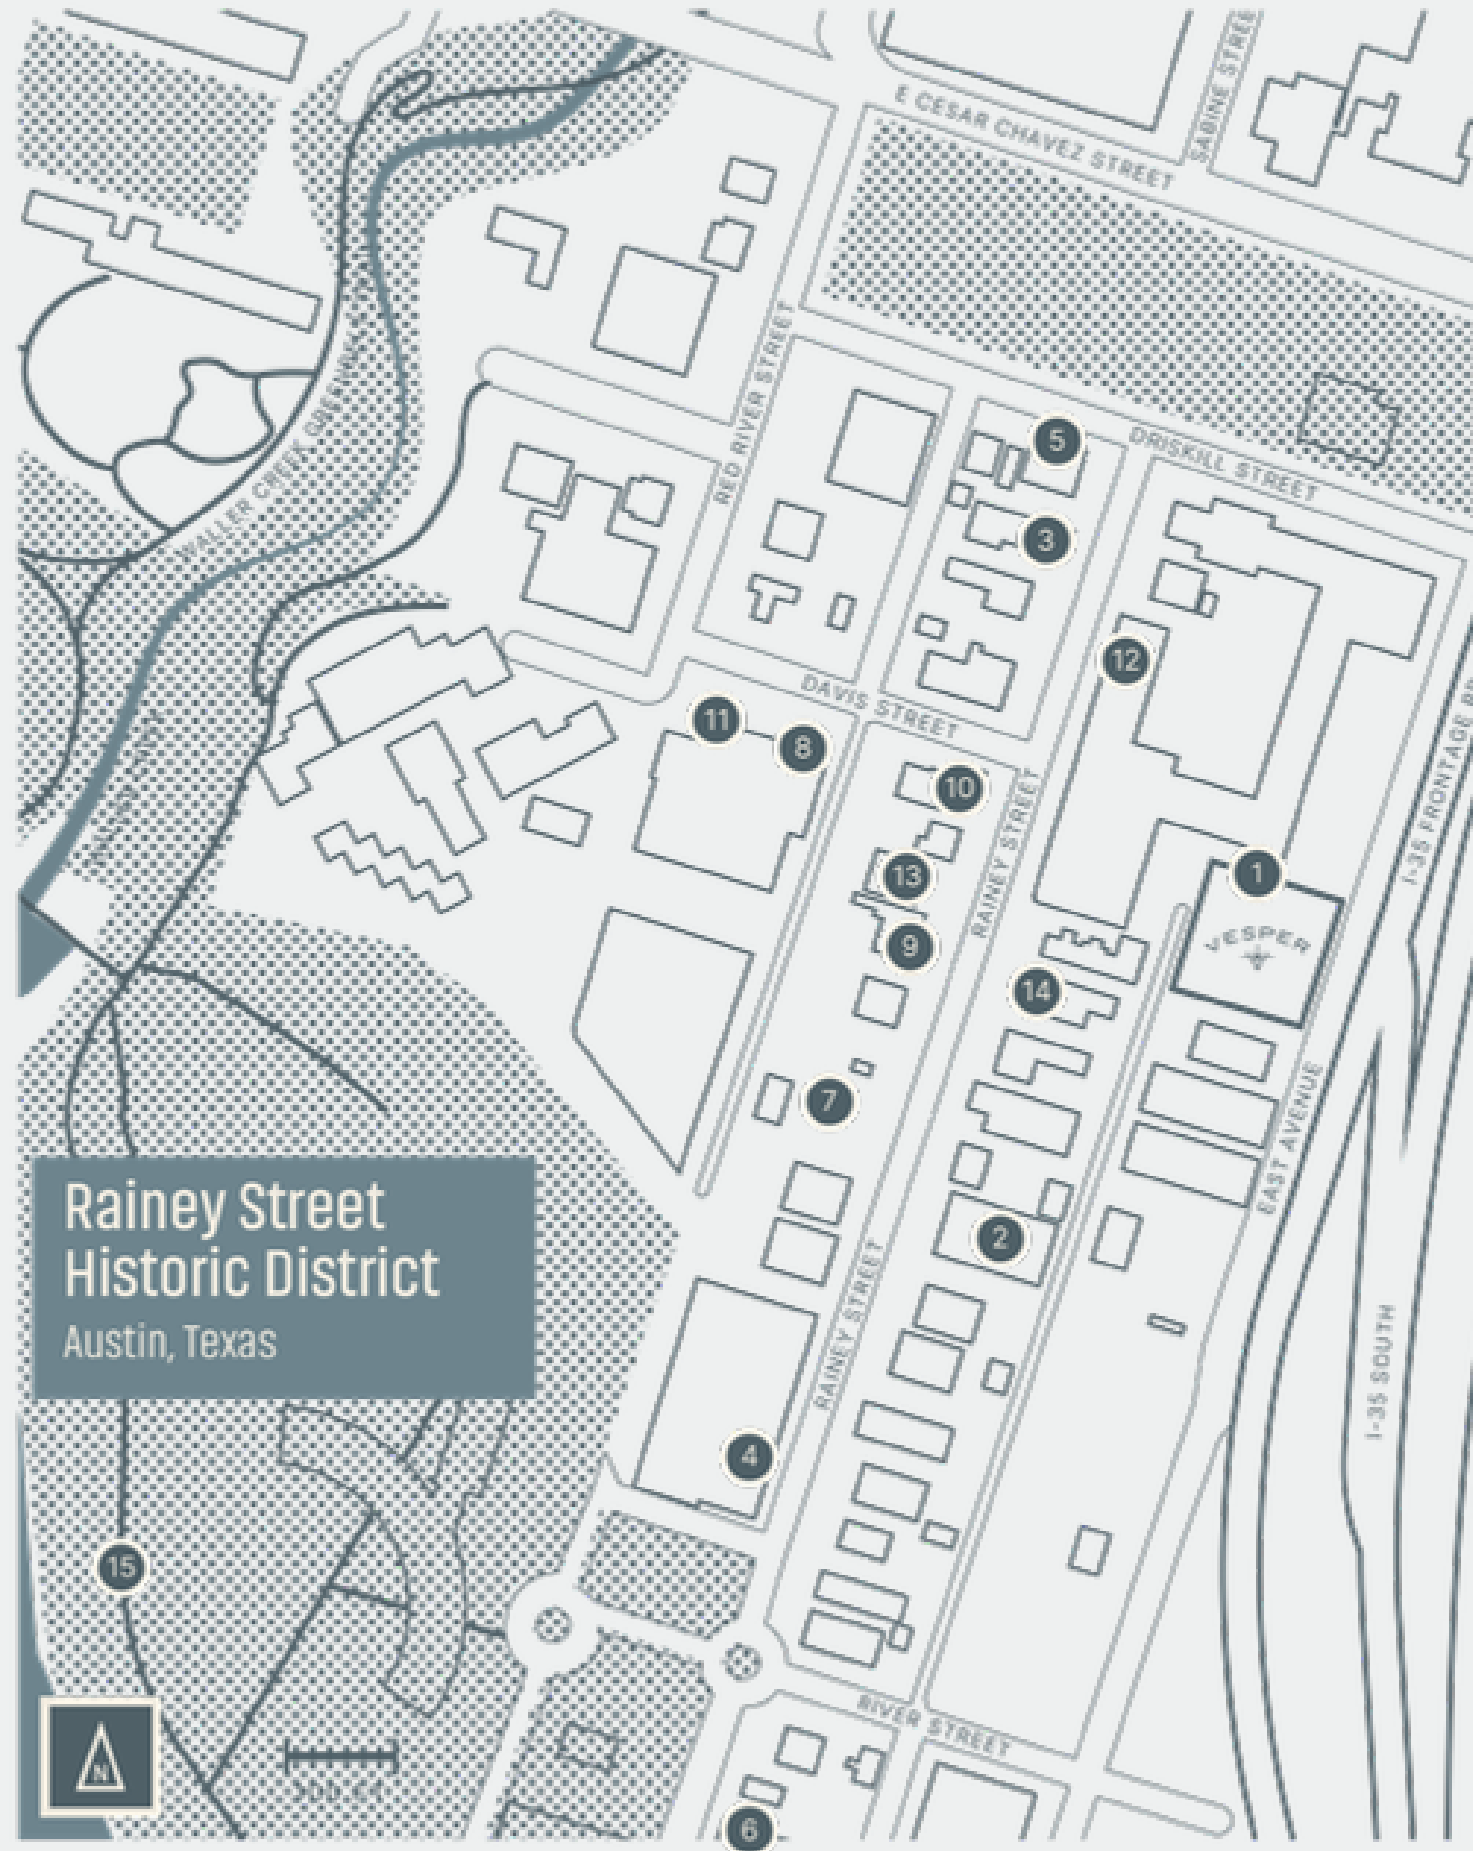

For Vesper, rather than focusing on trends or imposing a predefined aesthetic, they drew inspiration from Pearlstone's vision and layered elements old and new, local and global, luxury and pedestrian, so that each space became as vibrant and singular as the people who will live there.
